Vigneron de Loire

METHODE ANCESTRALE

"La Vie en Rose"

« The « méthode ancestrale » is a very old technic for producing sparkling wine, it is specifically used for aromatic grape varieties. This technic is radically different than the « méthode champenoise » wich enhances aromas because aged in bottle. » (Brunel 1992)

Grape variety : 100% grolleau noir

Yield : 60 hl/ha

Vinification : Hand picked harvest

Slow crushing

Static clarification

Fermentation in a tank

Fermentation continues into the bottle

Disgorging process at 11 %vol

Alcohol content : 11 % vol

Organic wine, controlled by Ecocert
